

# BACK YARD QUEST

contribute to  
science

share & track  
your findings

With a smartphone or tablet:

See reverse side for activity without smartphone or tablet!

Download the  iNaturalist app.

It's easy & free. No account required!

Make an observation outside. 

Leaves. Flowers. Trees. Bugs. Birds. Fish. Find something alive in your backyard, at a park, in the woods, or at the river.

Record your observations.

Take a picture or record a sound in the iNaturalist app.

Explore & share your findings. 

Your findings are shared with fellow naturalists who can help to identify them. Your findings are also shared with scientific data repositories to help scientists find and use your data. Every observation can contribute to biodiversity science.

SHARE A PICTURE OF YOUR FINDINGS WITH US!
